The Director of Central Intelligence

Washington, D.C. 20505

National Intelligence Council

10 July 1985

MEMORANDUM FOR: Chairman, National Intelligence Council

THROUGH: Director, Analytic Group

FROM: Julian C. Nall
National Intelligence Officer for Science and Technology

SUBJECT: Note of Appreciation

1. I want to call your attention to the outstanding work which was done by [redacted] of the NIC Analytic Group on the recently approved SNIE [redacted]

2. The original draft contained much of the required data but there was a profusion of unnecessary material and the logic and order of presentation needed considerable improvement. Because of the drafter's health problems, it was not returned to him -- instead, [redacted] to the rescue. In a relatively short time, he learned the details of the subject and took the relatively poor draft and converted it into one I considered to be excellent. The Key Judgments were well presented and the logic of the discussion was rigorous. At the NFIB meeting the DCI said, "This is a very fine piece of work." In my opinion [redacted] deserves the lion's share of credit for the preparation of this fine SNIE.

3. I personally appreciate what he did on behalf of my office and I only regret that because of his imminent departure I will not have the opportunity to work with him again.
